### 8. STATEMENT OF REASONS

### 8.1 Description of Development

The development application is for a Development Permit for Reconfiguring a Lot (Subdivision of four (4) lots into five (5) lots, new access easement and new road) approved as per Decision Notice 09-2021-2022.

#### 8.2 Assessment Benchmarks

The following are the benchmarks that are applicable to this development:

Benchmark applying for the development	Benchmark reference

### 8.3 Relevant Matters

Nil.

### 8.4 Matters Raised in Submission

The development application did not require public notification.

#### 8.5 Reason for Decision

The development application is approved and the reasons for the decision are based on findings on material questions of fact:

- The proposal creates lots that are functional, suitable and consistent with the existing zone
  and precinct intent. While the proposal results in one (1) lot (proposed Lot 4) that does not
  comply with the 600m2 minimum lot size requirement for the Township zone (Commercial
  precinct), the proposal can be justified on account of the long-standing use of the land for
  passive tourism purposes, for which a standard lot size is not required;
- The subdivided lots will continue to be consistent with the subdivision pattern of the locality and have sufficient area to accommodate the existing buildings and structures on the premises;
- The subdivided lots will continue to be serviced by all necessary infrastructure services;
- There are no flood impacts or environmental values mapped over or near the subject site that would be compromised by the proposal; and
- The proposal does not conflict with the needs of the local community or the reasonable development expectations for the subject site and land within the Township zone (Commercial precinct).

### 9. PROPERLY MADE SUBMISSIONS
